“ I worked at CDC in the 70s & 80s & and was involved in the EEO program. I just learned of Franklin’s passing. I left CDC in the 80s & we lost touch. What a man he was!!! Warm, compassionate, smart & articulate sums up Franklin. I am certain his legacy will live on & his memory treasured by his friends, family and colleagues. Rest in peace my dear friend.

“ My condolences to Frank's family. He was an outstanding PHA. In 1970, while assigned to Field Services, VD Branch in Atlanta, I was tasked with identifying candidates for its first Equal Opportunity Officer position for Dr Sencer. I rated Frank the top candidate among several that I referred for interview. Dr Sencer selected him and Frank did an outstanding job in a very demanding position.

“ The most dignified gentleman I ever met at the CDC. Franklin trained me and was my first supervisor. I am so sorry for the family. My sincere condolences. I have ver fond memories of our experiences in Cleveland, Ohio together. I was truly honored when he thought highly enough about my work to select me for the Tuskegee team. God bless you, Frank.

“ I first met Frank when he was assigned to the Detroit clinic in 1964 and we worked together on many projects for the ensuing 30 years. He was a kind and insightful man and friend to many. A story I have told many times is a tribute to Frank's natural athletic talent. After months of cajoling, we finally talked Frank into playing golf with a few of us. He had never picked up a golf club in his life - gripped the club like a baseball bat - but within a few holes he was playing well - breaking 60 in his first 9 holes. I'm not sure he ever played again, But if he wished, he would have mastered the game easily. An amazing guy!!

“ I was saddened to learn of the passing of Frank and extend my deepest sympathy to the Miller family. I had the great pleasure of working with Frank for several years at the Centers for Disease Control and Prevention. He was dedicated to improving the health of people domestically and internationally and this old globe is a far better place for his having walked here.
